Reduce, ReUSE, Recycle  
**AND VERICOMPOST**  
The NRRM proudly hosts a successful  
vermicompost system!

Vermicomposting is the process of  
worms transforming green waste into  
fertilizer! Take your **paper, wood,  
food and yard waste** to the Landfill  
Transfer Station and tip it in  
designated bins, or, contact a  
compostable waste collection service!

Keep green waste out of the landfill!
